EUROTOX MISSION

EUROTOX aims to foster toxicology, both scientifically and educationally, in all countries of Europe. To this, EUROTOX organises an annual scientific congress, workshops, and postgraduate training courses. EUROTOX is actively harmonising toxicology education and training, having established the European Register of Toxicologists in 1994. Furthermore EUROTOX honours annually a distinguished European toxicologist by its *Merit Award*. Young toxicologists are encouraged by the annual *Young Scientist Award*, which is awarded every year to the best presentation at the EUROTOX Congress.

OPPORTUNITIES

REACH Toxicologist at Ashland

Tenure-track position in the area of toxicology at University of Alberta

Senior scientific officer (Risk management) at ECHA

BHMF FUND

To honour Professor Bo Holmstedt, the **Bo Holmstedt Memorial Fund (BHMF)**, in collaboration with EUROTOX has established the Bo Holmstedt Memorial Lecture to be presented to an outstanding European Toxicologist at the EUROTOX Annual Congress meeting. The foundation is also supporting the Paracelsus symposium at the annual meeting. Bo Holmstedt's great interest in the teaching of toxicology and supported research in developing countries, a travelling lecture fellowship has also been established to allow a toxicologist from a developing country to spend some time in a European laboratory or regulatory agency.
