Tricks and tips to specific operations

Today's news:

Abstracts can now be sent for the next EAES meeting in Vienna: go to <http://congress.eaes.eu/congress2013.aspx>

The deadline is 15 January 2013

**Review of the press:** In this new section of the EAES website, we have asked international experts to analyze a recent publication in the surgical literature and provide their critical appraisal. Thus the EAES hopes to provide our readership with sound information to better analyze the literature and enhance their understanding of optimal care for their patients□□

Currently (as of November 6, 2012), eight articles have been analyzed

**Three new sites have been added to the list of the EAES Endorsed Courses Educational Centers for the year 2012 as follows:**

---

**Russian School of Colorectal Surgery**

2) A multifunctional calendar where you will find all the important future events in the field of minimal access surgery. With a simple click, you will be informed of how to register and find more information. For the time being, a reminder of upcoming events (with appropriate links) can be found on the right hand column of this home page.

3) Videos of "how I do it" by world reknown experts in all fields of minimal-access interventions

4) Videos of "quacks" (what went wrong and how to avoid this in the future)

5) A special feature for the patients. In this section, patients will be able to find plain language explanations for the problems they have, and also find the physician located closest.
