*Dear Authors and Readers,*

*Twenty years have passed since publication of the first issue of the "Polish Journal of Environmental Studies. " During the past two decades our "little" journal has grown from its initial local scale to reaching an international audience with content submitted from around the globe. I would like to thank all authors, reviewers, editorial board members, and the editorial team for all they have done to develop the journal, which currently has an Impact Factor that oscillates around 1.*

*The journal's scope that concerns problems connected with protection of the natural environment has evolved over time.*

*A number of tasks lie before us as we move into our third decade. Perhaps most important of these is continuing to increase scientific and educational levels. As has been the case for the past 20 years, the realization of this goal is possible only with the assistance of our many authors and reviewers. If you have not yet given us the honor of submitting your manuscript, now is a great time to begin a new collaboration.*

*Jerzy Radecki  
Editor in-chief*
