## Welcome to EAPB

The European Association of Pharma Biotechnology (EAPB) is the representative of pharmaceutical biotechnology in Europe.

As a non-profit organization EAPB provides a central network linking academia, industry and regulatory bodies.

EAPB is dedicated to the advancement of biotechnology in pharmaceutical sciences, specifically as applied to medicinal drugs, processes, technologies, and associated issues. Its members constitute professionals from biotechnology and pharmaceutical companies, governmental authorities, academia and scientific organisations.

## News

no news in this list.

EAPB acts as the official associated section of **Pharma and Medical Biotechnology** of the **European Federation of Biotechnology (EFB)**
