DermIS.net is the largest dermatology information service available on the internet. It offers elaborate image atlases ([DOIA](#) and [PeDOIA](#)) complete with diagnoses and differential diagnoses, case reports and additional information on almost all skin diseases

Additionally, DermIS offers:

[Information modules on selected diseases](#)

Information on skin diseases, illustrated by photographic images (e.g. rosacea and eczema). Descriptions, therapeutic measures and skin care suggestions

[Organisations which are hosted by DermIS](#)

Web pages of German, European and international medical organisations.

[Additional Information](#)

A large collection of links with web pages of hospitals, medical journals and much more.

A cooperation between the [Dept. of Clinical Social Medicine](#) (Univ. of Heidelberg) and the [Dept. of Dermatology](#) (Univ. of Erlangen)

Comprehensive information about hemorrhoidal disease and overview on therapeutic options and the effectiveness of topical treatments.
