

The EuroGentest website has recently been updated. To make sure you have an optimal view of the website layout, please [click here](#) for instructions.

**What is EuroGentest?**

EuroGentest is a project funded by the European Commission to harmonize the process of genetic testing, from sampling to counseling, across Europe. The ultimate goal is to ensure that all aspects of genetic testing are of high quality thereby providing accurate and reliable results for the benefit of the patients. [More...](#)

**For specific groups**
