Preventing Depression and Improving Awareness through Networking in the EU (PREDI-NU)

17 October 2012

PREDI-NU Website aims to increase awareness and develop evidence-based self-management resources through the web for young people and adults with mild to moderate depression. A multilingual PREDI-NU awareness website will be available [online](#) from **1st November 2012**.

PREDI-NU was presented at the Start-up meeting of the European Society for research on internet interventions (ESRII) in Lueneburg, Germany in May 2012 and at the 14th European Symposium for Suicide and Suicidal Behaviour (ESSSB) in Tel Aviv, Israel in August/September 2012.

Members of the PREDI-NU consortium also contributed to the conference "**Suicide Prevention for Young People: Possibilities and Challenges**" in Budapest, Hungary on the **19-21 October 2012** and will contribute to the IASP World Congress 2013: "**Preventing suicidal behaviour on five continents – Innovative treatments and interventions**" in Oslo, Norway on the **24-28 September 2013**.

This year theme of the World Hospice and Palliative Care Day - 13 October - is "Living to the end: palliative care for an ageing population"

12 October 2012

Palliative care is a field where basic equity and proper European harmonisation can be ensured. The Treaty of Lisbon, the European Parliament resolution on patient mobility and healthcare developments in the EU, as well as other recent actions considering new perspectives and needs from patients, health services and health systems, provided a ground to new areas of cooperation related to palliative

Health: Aphekom findings add new dimension to health impacts and costs of air pollution in European cities

7 March 2011

The project shows that life expectancy and monetary benefits increase significantly when levels of fine particles are reduced further in European cities; it reveals that living near busy roads substantially increases the total burden of disease attributable to air pollution; and it underscores the benefits from regulating pollution near busy roads beyond the achievements of current EU legislation.
