General Information

Polish Journal of Food and Nutrition Sciences has been established by the Committee of Food Sciences and the Committee of Human Nutrition Science of the Polish Academy of Sciences, the Polish Food Technologists' Society and the Polish Society of Nutritional Sciences.

It has been published since 1957 as *Roczniki Chemii i Technologii Żywności* and *Acta Alimentaria Polonica* (1957-1991). Since 1992, it has been published by the Institute of Animal Reproduction and Food Research of the Polish Academy of Sciences in Olsztyn as a quarterly *Polish Journal of Food and Nutrition Sciences* (one volume in four issues: March, June, September, and December).

PJFNS is published under **Honorary Patronage**, of distinguished Polish Professors in Food Science and Nutrition: **Prof. Stanisław Berger (Warsaw)**, **Prof. Józef Fornal (Olsztyn)**, **Prof. Anna Gronowska-Senger (Warsaw)**, **Prof. Henryk Kostyra (Olsztyn)**, **Prof. Halina Kozłowska (Olsztyn)**, **Prof. Andrzej Piśula (Warsaw)**, **Prof. Antoni Rutkowski (Warsaw)**, and **Prof. Zdzisław E. Sikorski (Gdańsk)**.

Scope

The Polish Journal of Food and Nutrition Sciences publishes original, basic and applied papers, reviews and short communications on fundamental and applied food research in the following **Sections**:

Food Technology:

- Innovative technology of food development including biotechnological and microbiological aspects
- Effects of processing on food composition and nutritional value

Food Chemistry:

- Bioactive constituents of foods
- Chemistry relating to major and minor components of food

Food Quality and Functionality:

- Sensory methodologies
- Functional properties of food
- Food physics

Analytical Section:

- Analytical methods
- Quality, storage and safety of food

Nutritional Research Section:

- Nutritional studies relating to major and minor components of food

"News" section:

- Announcements of congresses
- Presentations of research institutes
- Books reviews

Reviews on specific topics relevant to the advance of the Baltic Region food science and nutrition research are particularly welcome.

Review Policy: The Co-Editors with the Editor-in-Chief will select submitted manuscripts in relationship to their innovative and original content. Referees will be selected from the Advisory Board and/or qualified Polish or foreign scientists. Acceptance of a paper rests with the referees.

Out of the scope of the journal are:

- Contributions which are not of international interest or do not have a substantial impact on food sciences
- Submissions which comprise merely data collections, based on the use of routine analytical or bacteriological methods

Manuscripts should be submitted to PJFNS via Editorial Manager system available from PJFNS homepage.

Indexed

The quarterly is covered by BIOSIS (Biological Abstract), BIOSIS Previews, CAB International (Food Science and Technology Abstract), CAS (Chemical Abstract), AGRICOLA, AGRD-LIBREX data base, AGRIS data base, Foodline, Index Copernicus, Leatherhead Food RA data base FROSTI, The Summon, CSA/ProQuest: Bacteriology Abstracts (Microbiology B) and Immunology Abstract, Polish Scientific Journals Contents (PSJC) Life Science data base available at (<http://psjc.icm.edu.pl>). **Since March 1st, 2009, the quarterly is being indexed in SCOPUS.**
